2018

नववर्ष की हार्दिक शुभकामनाएँ।

INDOGULF
CROPSCIENCES LTD.

Mr. Sanjay Aggarwal
Managing Director

Dear Business Associates and colleagues,

As we enter a new year 2018, I take the occasion to convey my heartiest wishes to all of you, May this year bring prosperity and happiness in your lives.

The year 2017 started on a somber note with the effects of last year ends tragic events but with the exemplary efforts of all our teams and your unfaltering support, we are able to end the year on a high note. I thank all of you from the bottom of my heart.

This year, we have opened up new channels of communications with you through interactions such as Meet n greet. We have taken great strides in new product development with eminent scientists joining us and starting 4 research farms at Sonapat and Bhadwasini in Haryana, Ajeetgarh in Rajasthan and Ludhiana in Punjab. We have also renewed our association with IARI for testing of many of our products. Our R&D laboratory has been certified as NABL Accredited.

Human capital is our biggest asset, and we are further strengthening it by inducting Industry leaders in our fold and renewed focus on training of our teams specially in Marketing so that we may serve you even better.

Quality is the hallmark of our manufacturing strength and we are keeping no stone unturned in confirming to the highest industry standards, however the biggest test is your satisfaction that is the biggest reward we always strive for.

We are confidently striding in new and uncharted territories. Our participation in major international industry events in US, Brazil, China and Kenya and also in India has confidently announced our presence at the world stage.

All these endeavours will bring about a perceptible difference in times to come.

Given this flying start, we are confident that the New Year 2018 will keep a buzz with lots of news from our end. Our focus this year will be on new products introduction and customer service and I am sure that our efforts will certainly bear rich fruits in terms of business growth and enrichment of our long association with you.

I feel proud to present yet another edition of Indogulf times and I am sure it will create awareness and pride in every one associated with us..

Once again, a very **HAPPY NEW YEAR 2018** to you and your family!!

Dr. P. C. Rai
VP-Corporate Affairs

New Core Team Members

Mr. Manoj Gupta
GM-Corporate
Finance and Accounts

Dr. Rai has a doctorate in Entomology and Agricultural Zoology from Banaras Hindu University and has more than 26 years experience in leading Multinational and Indian Companies.

Dr. Rai brings with him rich experience of Marketing, Sales, Market Development and team building and training and his experience. He expertise will provide us new impetus in our customer service and focused marketing.

Mr. Manoj Gupta is ACA from the INSTITUTE OF CHARTERED ACCOUNTANT OF INDIA with expertise in audits, accounting and taxation and has 20 years of experience across a wide range of industries.

He has a rich exposure to Agrochemicals Industry and is well versed with the industry practices and challenges. He is tasked with revitalizing and restructuring the Accounts and Finance function along modern lines in face of challenges such as GST and to make the accounting system more responsive to the customer needs and queries.

Success Stories

Jaspal Singh son of Sri Labh Singh
Village Beer Bahim, Bhatinda, Punjab,
Mobile No 9463434379
He got very satisfactory results against
stem borer and leaf folder in rice by
using Indogulf Cropsiences Ltd
products- Dominator plus Spine used..
Good result against stem borer and leaf
folder

Darshan Singh son of Teja
Singh from Tangwali.,
Bhatinda, Punjab.
Mobile No. 7889196626.

He used Dominator plus
spine in his rice crop.. Good
result against stem borer

Ramesh Yadav
Vil Shanthinager
Mandal - Waddepalli
District -Kurnool
Mobile no 8309474667

Regularly using Root o
max gold and Picaso
Gold in his chilly crop and
gets very good yield

Sri Suryachandra Rao
Vill. Arepalli, E. Godavari, AP
He used 500 ml Picaso Gold of
Indogulf Cropsiences Ltd as
basal dose in his rice crop. As a
result he got very healthy
plants with double the no. of
tillers. He took out a plant each
from treated and control field.
The difference is self evident.

Salvindra Singh
Village Pachlona, Kasganj, UP
Mobile No. 9575309042

He used Root-O-Max Gold and
Srizon in his paddy crop.

He got very good tillers as a
result and is expecting very
good yield.

Rajkumar
Village Lawar, Meerut, UP
Mobile No. 9457030516

He used Root-O-Max Gold and Indo
Mycoriza in his Sugarcane crop. He
also used Sitara and got very good
crop stand free from pests.

He is very happy with his sugarcane
crop and he recommends Indogulf
Cropsiences Products to all
farmers in his village.

International Business

INDOGULF RESEARCH & DEVELOPMENT FARM AT SONEPAT, HARYANA (INDIA)

MAJOR PROJECTS AT INDOGULF R&D FARM NATHUPUR (SONEPAT) HARYANA:

1. Evaluation of various dosages of ROMG, Biogold, Picasso gold on tomato crop.
2. Evaluation of ROMG V/S. ROMG wheat special on wheat crop.
3. Efficacy study of biogold as seed dresser on wheat, potato, gram, lentil, pea, and maize crops.
4. Comparative study of ROMG and Indomycorhiza on potato, wheat crop.
5. Comparative study of Ankur gold V/s. Atop with various pesticides on different crops.
6. Comparative study of ROMG and Indomycorhiza on paddy crop.
7. Efficacy study of Picasso gold V/s. Picasso Power in cotton crop.
8. Bioefficacy and phytotoxicity study of Chlorimuron ethyl on paddy crop against weeds.
9. Efficacy of Glyphosate 54%SL w/w against weeds in Non- Crop
10. Efficacy study of Tebuconazole 2DS against wheat germination
11. Bioefficacy and phytotoxicity study of Anmol (Thiamethoxam 50%WP) on cotton crop sucking pests.
12. Bioefficacy and Phytotoxicity study of Bound off with Ankur gold V/S. Atop in non-cropped area.

Distinguished Scientist Award- 2017 Award conferred upon Dr. Dewa Ram Bajja- Sr. Scientist, Indogulf CropSciences Ltd.

Delivering a lecture on Scientific Cultivation of Cotton Crop on DD KISAN

Young Agronomist- 2017 Award conferred upon Dr. Arvind Kumar-Scientist Indogulf CropSciences Ltd.

SCIENTIFIC WHEAT PRODUCTION TECHNIQUES: - Dr. D. R. Bajja, Sr. Scientist - ICL

Wheat crop encounters various problems that limit its productivity. The important ones are given below.

- **Rust:** Stripe rust (yellow rust) is very important disease in wheat. Usually, it is observed that the early infection of stripe rust starts in wheat field's under the poplar trees.
Spray the crop with **Srizol** @ 375-750 ml/ha, or **Figon** 750-1000 ml/ha or **Tango super** @ 500-600 gm per hectare.
- **Loose smut:** Loose smut is a seed borne disease. For this, seed treatment with **Rexcel DS** @ 2.5gm/kg seed is recommended.
- **Flag smut:** Flag smut disease also poses problems in isolated fields in Punjab, Haryana, Rajasthan and some other parts of NWPZ. For this, seed treatment with **Rexcel DS** @ 2.5gm/kg seed is recommended.
- **Karnal bunt:** Karnal bunt (KB) control is required for seed crop and the produce grown for export purposes. Zero tillage helps in reducing Karnal bunt incidence. Avoid irrigation at heading time. One spray of **Srizol** @ 375-750 ml/ha or **Figon** @ 750-1000 ml/ha in mid February to control the disease.
- **Powdery mildew:** For the control of powdery mildew in disease prone areas, one need-based spray of **Srizol** @ 375-750 ml or **Tango Super** @ 500-600 ml per acre can be given at ear head emergence or appearance of disease on flag leaf, whichever is earlier.
- **Termite:** In the termite prone areas, seed treatment with **Rusban 20% EC** @ 3-5 ml/kg seed is taken up for their management. Seed treatment with **Savera** @ 7-8 ml/kg seed is very effective. Application of **Spine** @ 1500 2000 ml per ha with irrigation water is very effective.
- **Aphids:** For the management of aphids, foliar spray of **Khiladi** @ 80-100 gm per ha or **twins** @ 40-50 ml per ha

GENERAL TIPS:

- Choose the best suitable variety for your area and condition.
- Follow timely planting and avoid delay in sowing of wheat crop to avoid yield losses due to adverse effects of heat around maturity.
- Apply **Root-O-Max Gold** @ 4-6 kg per acre at the time of sowing or within 40 DAS
- Use **Ankur Gold** @ 5ml per 15 ltr spray solution for ensuring optimum efficacy of Agrochemicals.
- Manage your crop with optimum inputs (fertilizer, irrigation water, herbicides and fungicides) for maximum yield.
- Timely and judiciously irrigate fields to save water and cut cost.

खेत सल्लिखन

रबी फसलों में अंकुर गोल्ड के लाभ

अंकुर गोल्ड एक अल्पाधुनिक सुपर स्प्रेडर है जो कि जल के पुच्छ तनाव (सर्फेस टेंशन) को कम कर देता है जिससे दवा पौधे पर पूरी तरह फैल जाती है व तुरंत समा जाती है। यह किसी भी दवा में मिलाया जा सकता है और इसके इस्तेमाल से दवा, जल व मजदूरी की बचत की जा सकती है।

अंकुर गोल्ड के खेतों में निम्न लाभ है-

1. अंकुर गोल्ड रसायन को पूरी पत्ती पर फैलाता है और तुरंत पौधे में प्रवेश कराता है।
2. यह रसायन का पूरा पौधे में एकदम वितरण करता है।
3. यह कृषि रसायन को जल्दी सक्रिय करता है और कृषि रसायनों की शक्ति को भी बढ़ाता है।
4. अंकुर गोल्ड के उपयोग से कम कृषि रसायन और पानी की मात्रा से भी अधिक गुणवत्ता और पैदावार मिलती है।
5. कुछ फसलों व खरपतारों के पत्ते और तने बहुत सख्त और चिकने होते हैं, जिन पर कृषि रसायन का फैलाव व प्रवेश अच्छे से नहीं हो पाता है। अंकुर गोल्ड पुच्छ तनाव (सर्फेस टेंशन), संपर्क कोण और चिपचिपापन कम करता है। इस प्रकार कृषि रसायन आसानी से फैल जाता है और पौधे में प्रवेश कर जाता है।
6. अंकुर गोल्ड के बिना ऐसे पौधों व खरपतारों में दवा लक्ष्य तक पहुँचाना असंभव है।
7. अंकुर गोल्ड में तापमान स्थिरता के गुण हैं अतः यह कृषि रसायन को काम तापमान पर भी सक्रिय रखता है।
8. अंकुर गोल्ड का प्रयोग सिंचाई में भी किया जा सकता है। यह सिंचाई जल को फैलाता है जिससे पानी दूर तक पहुँच जाता है और पानी व ईंधन की बचत होती है, फलट सिंचाई से होने वाले नुकसान को भी काम किया जा सकता है। यह ड्रिप सिंचाई की नलियों को भी साफ करने में मदद करता है।
9. अंकुर गोल्ड का प्रयोग सिंचाई में भी किया जा सकता है। यह सिंचाई जल को फैलाता है जिससे पानी दूर तक पहुँच जाता है और पानी व ईंधन की बचत होती है, फलट सिंचाई से होने वाले नुकसान को भी काम किया जा सकता है। यह ड्रिप सिंचाई की नलियों को भी साफ करने में मदद करता है।
10. अंकुर गोल्ड न केवल पत्ते के ऊपर अर्थात् नीचे की सतह तक भी दवा को पहुँचाता है। अतः नीचे लगे हुए कीट व रोगों से भी आसानी से छुटकारा मिल जाता है।
